

Description of Permissive Change

The application is prepared for FCC class II permissive change by adding frequency band and mode through software enabling to its original parent application. The adding frequency band is from 5.25 to 5.35GHz, 5.47 to 5.725GHz and 6E band for this device. The device, original and updated versions, are electrically identical in all aspects except adding 5250 ~ 5350MHz and 5470 ~ 5725MHz band.

Regards,

A handwritten signature in blue ink that reads "Debby".
