RE: Arcadyan Technology

FCC ID: RAXWN6301D

This filing will need to go to FCC. However, I do have a few issues I would like to correct right away.

- 1.) Please provide a revised Confidentiality Request letter. The one submitted asks for a non-existent exhibit (Parts List) to be held Confidential. This cannot be done.
- 2.) The operational description for this device is incomplete. The one provided is for an 802.11b/g only device. Please revise.
- 3.) Please confirm the 5.8GHz frequency band for this device. Do you want the 5745MHz – 5825MHz band to be listed as a UNII or DTS device?

William H. Graff
President and Director of Engineering
