Subject: Navico Inc's application for C2PC for their FCC ID: RAYHALO3000

To Whom It May Concern:

We are submitting a request for C2PC for the above referenced FCC Identifier, which was granted on June 6, 2022.

The original RF Exposure assessment was too conservative and marketing requirements triggered a more accurate measurement. Therefore, this C2PC comes with the MPE Measurement report, an updated user manual containing the updated RF Exposure safety distance, revised test reports for Part 80 and 90 with minor clerical updates and an updated tuning procedure which reports the rated output power.

Should you require any further information, please do not hesitate to let us know.
