**Class II Permissive change**

**Original Grant date: 10/18/2012**

To Whom It May Concern:

This is to request a Class II permissive change for FCC ID: RB2-U770 originally granted on 10/18/2012.

The proposed changes under this application are as follows:

- Adding LTE 3 MHz and 10 MHz bandwidths

(It is using software to enable the bandwidths and only original manufacturer can implement them.)

- Modified the antenna matching and schematics and Parts list are updated accordingly. (Previous approved functions as CDMA and WiMax have been evaluated against the change for both EMC and SAR tests and result was considered as a C1PC.)

Sincerely,
