

§ 15.247(b) Maximum Peak Output Power

Minimum Standard – The maximum peak output power of the transmitter shall not exceed 1 watt. These are radiated measurements.

Note: Measurements taken with Peak Power Meter

FREQUENCY (MHz)	Channel	Power Output Radiated EIRP (dBm)
2412	01	12.67
2437	06	13.37
2462	11	13.57
