

Insulet Corporation

Attention:
Application Examiner

Re: Request for confidentiality

Applicant: Insulet Corporation

FCC ID: RBV-019

To whom it may concern,

Permanent Confidentiality

Request is hereby submitted by Insulet Corporation to withhold permanently from public review certain portions of the application for equipment certification for the referenced FCC identifiers. This request for confidentiality is made pursuant to 47 CFR 0.457(d) and 0.459 of the FCC Rules. In particular, the following sections of the application are to be kept permanently confidential:

- **Schematics**
- **Detailed Block diagrams**
- **Detailed Operational/Functional Description**
- **All internal photos**

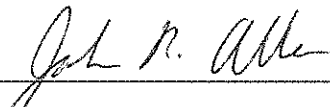

Rationale for request for confidentiality:

Insulet Corporation has invested considerable time and materials in research and development to produce the referenced product. Disclosure of the permanently confidential portions of this application to competitors would not only give them significant competitive advantages in developing similar products, but would also disclose successful implementation of unpublished, leading edge technology developed by us.

Regarding confidentiality of internal photos, the user cannot normally see components contained within the housing because the housing is sealed and disassembly would destroy the product.

The fee for confidentiality has been submitted along with the fee for certification. If you have questions or need further information, please contact the undersigned.

Sincerely,

 4/17/2013

John R. Allen
Lead Electrical Engineer
Insulet Corporation
