1. Connect 12V DC Power cable
2. Connect USB cable from Elo TouchMonitor to one of the USB Type A connections
3. Connect HDMI cable between Elo TouchMonitor and HDMI Out connection
4. Press the power button to power on the EloView Engine

The included mounting brackets can be removed for use with other brackets included with accessory bracket kit P/N E802593, available separately.

You need the following items to install the switch on a wall:

- One pair of wall mount brackets
  - Four screws (M5 type) to attach the brackets to a wall
  - Driving the Screws through the Holes
- Position brackets on the equipment and drive screws through the holes to attach the brackets on the wall
