Caution

Please read and observe all warnings and instructions in this owner's manual and those marked on the unit. Retain this booklet for future reference.

There are two kinds of alarm symbols as follows:

WARNING

The lightning flash with arrowhead symbol within an equilateral triangle is intended to alert the user to the presence of "dangerous voltage" within the product's enclosure that may be of sufficient magnitude to constitute a risk of electric shock to persons.

CAUTION

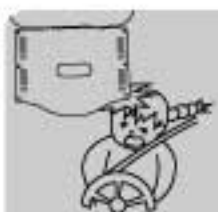

The exclamation point within an equilateral triangle is intended to alert the user to the presence of important operating and maintenance (servicing) instructions in the literature accompanying the product.

WARNING

Installation of all TV monitors must be out of the driver's field of vision!

Do not mount the product where it will obstruct the deployment of the airbag or in an area where it would affect the vehicular control. Also be careful to avoid mounting the product where it can become hazardous during sudden stops or in the event of an accident.

Do not try and service these products yourself, seek only a qualified service center or factory service center.

Be careful not to drop or apply undue pressure to the front panel of your video monitor. If the screen cracks due to misuse your warranty will be void!

Be careful not to overload your cigarette lighter plug by adding more than one device at a time.

Use extra caution with any liquids in your car. If you or your child spill any liquid on these products, pull your vehicle to the roadside and turn the key off to disconnect or wipe the products with a towel. Do not operate the equipment until all liquids have either evaporated or you have had the monitor inspected at a service center by a qualified technician. Severe harm or death can occur!

Use only a damp cloth to clean the screen and use only purified water on the cloth, wring out all excess water prior to wiping the screen. Do not use any cleaners or chemicals to clean the screen. In most cases a dry cloth will do!

Caution

CAUTION

Quality installations are best performed by qualified and certified installers.

Watching the monitor for an extended period of time without the engine running may deplete the vehicle's battery charge.

Don't touch the unit there is a flash of lightning. It may receive an electric shock.

This product is designed for operation with a 12 Volt DC, negative ground vehicle. It is not suitable for operation under other conditions or voltages.

Do not cover or stop up heater ducts or vents. It may be the origin of a fire or receives an electric shock.

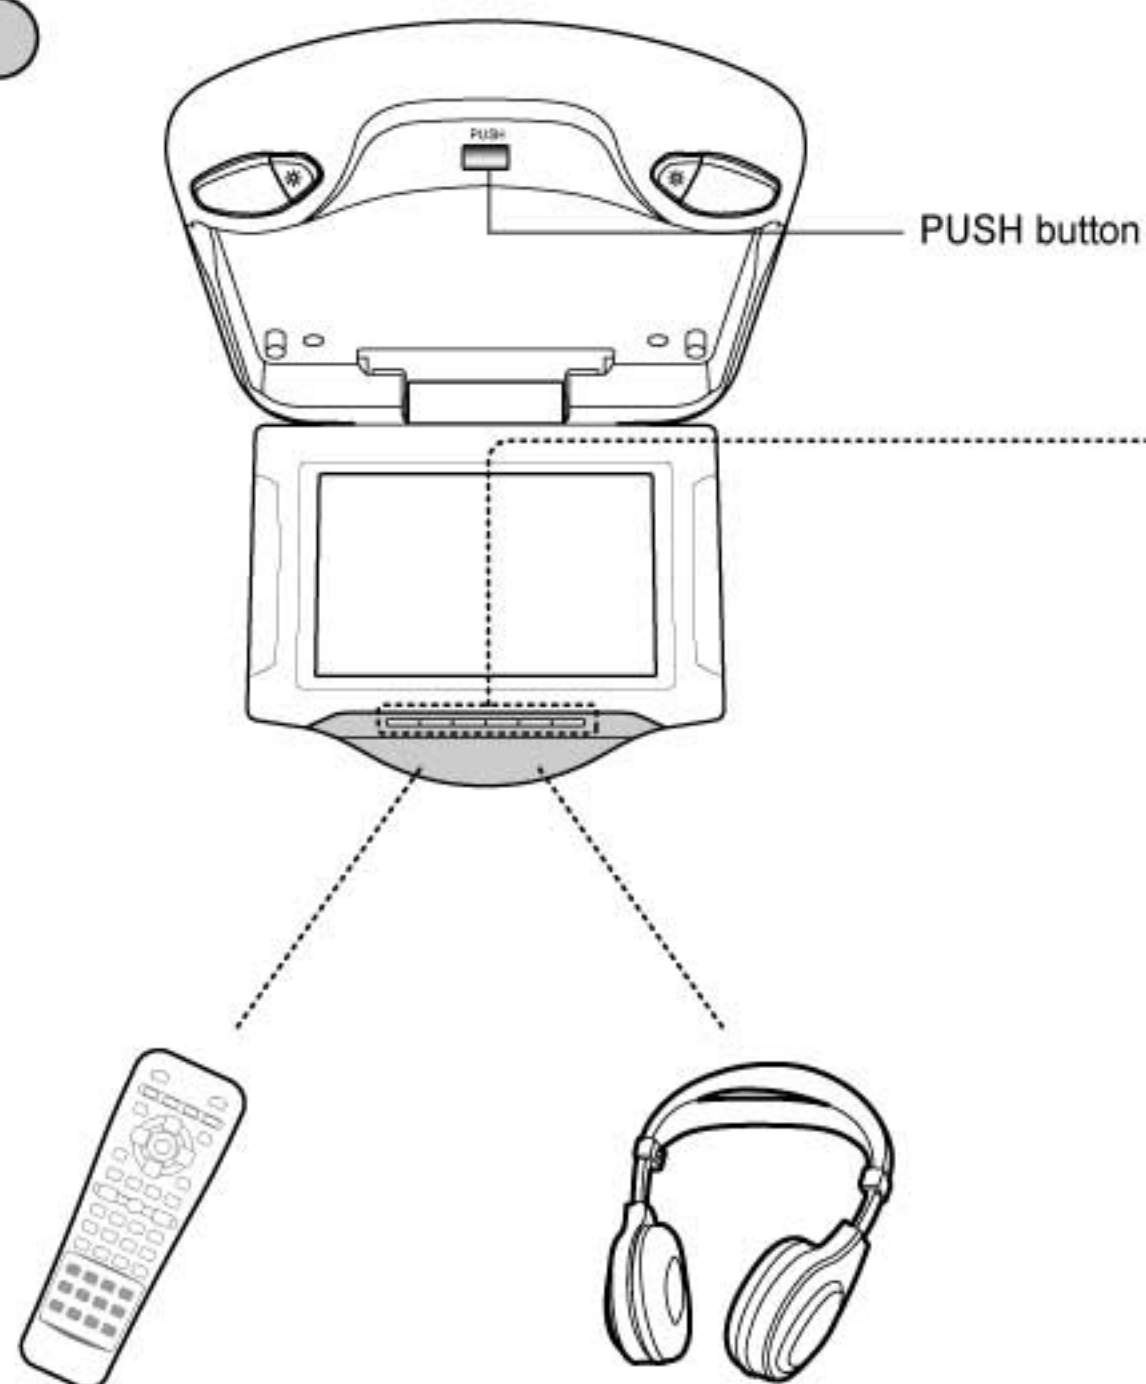

Check Point

1. The operating temperature of this product is limited to $-4^{\circ}\text{F} \sim +176^{\circ}\text{F}$. Your vehicle can reach temperatures up to 212°F in the summertime.
2. From time to time when your vehicle is extremely hot or cold you must allow time for your air conditioner or heater to cool or heat the vehicle and for operating temperatures to return to normal operating ranges. Your monitor will return to its normal functions when these operating ranges are achieved.
3. Your optimum picture quality is achieved when you are directly in front of the monitor (± 30 degrees).
4. Do not open covers and repair yourself. Refer servicing to qualified personnel.
5. DVD Players use an invisible laser beam which can cause hazardous radiation exposure. Be sure to operate the unit correctly as instructed.
6. Do not cut the car power supply off while a disc is playing. It can cause damage to the DVD Player.

Name and function of each part

UNIT

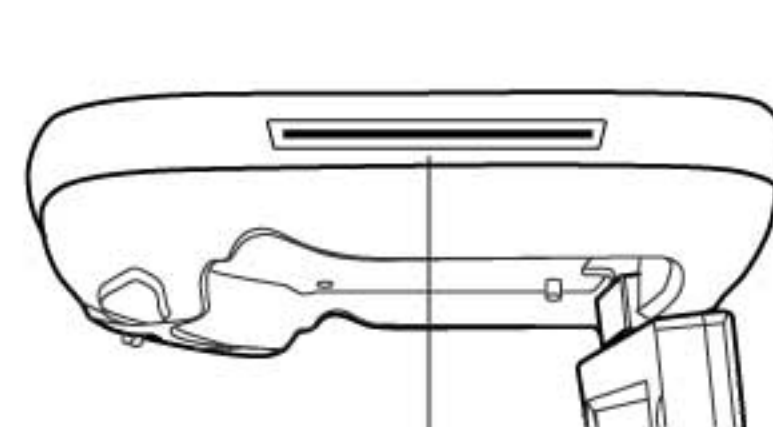

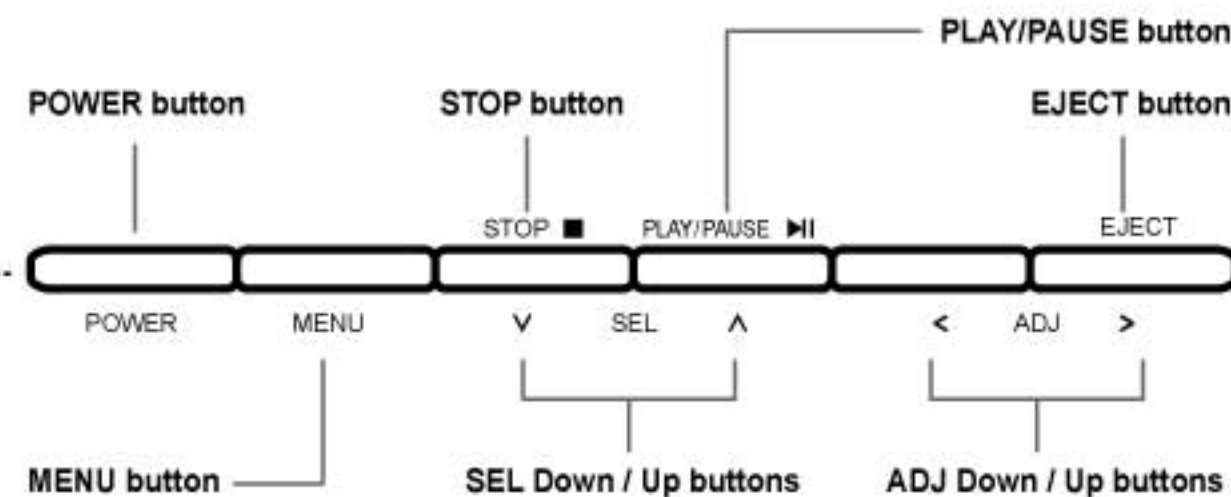

Remote control eye.

This allows transmitting of the remote control's IR signals for controlling all functions of your monitor.

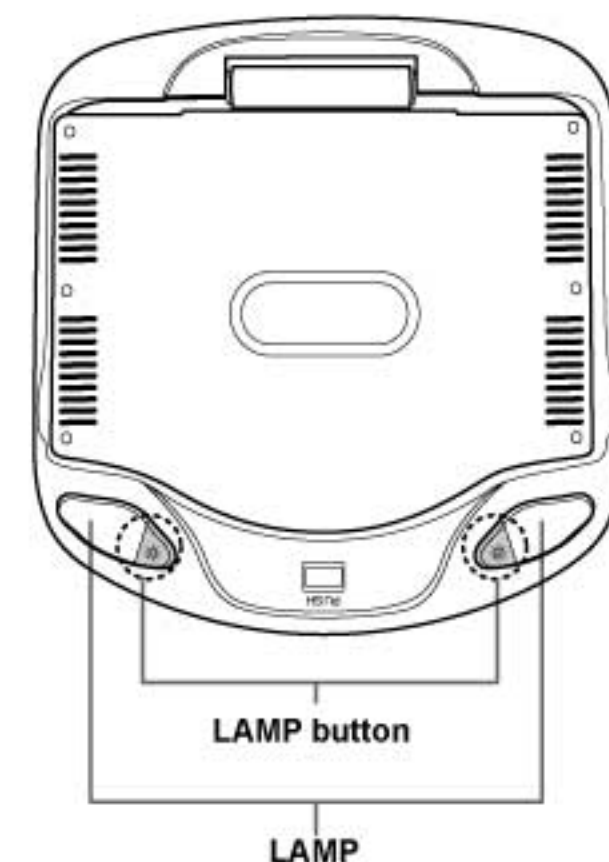

IR wireless transmitter module

This module sends the audio signal to aftermarket wireless IR headphones. The audio signal is converted to an infrared light transmitted to your headphones by line of sight. You only have to be in view of the IR transmitter.

Name and function of each part

Disc Tray

LAMP button

LAMP

Name and function of each part

Remote Controller

EJECT button
OPEN/CLOSE the disc tray.

TITLE button
Use to display the title menu of the loaded DVD disc.

ARROW button
Use to move to the desired menu.

ENTER button
Use to select the menu item.

DISPLAY button
Shows information of elapsed or remaining time of a chapter or a title.

FR button
Use to play reverse silently.

STOP button
Stops disc play.

SLOW button
Use to play slow silently.

FF button
Use to play forward silently.

PREVIOUS button
Use to move to the previous chapter of track.

PLAY/PAUSE button
Begins/pauses disc play.

NEXT button
Use to move to the next Chapter or track.

MONITOR CONTROL

POWER button
Turns on the Monitor.

PICTURE button
Use to adjust the picture settings.

ADJ button
Adjustment in each mode.

POWER button
Turns the DVD Player & Unit on or off.

MODE button
Changes each Play mode.

SETUP button
Use to set various functions according to your individual preference. (Auto memory if your DVD Player is TV mode)

MENU button
Shows the menus.

MUTE button
Use to cut the sound on or off.

ZOOM button
Zoom in on picture.

AUDIO button
Plays one frame at a time.

GOTO button
Use to search a title or a chapter of your DVD disc.

NUMERIC button
Use when making a selection on the menu screen.

SUB-T button
Changes the subtitle language to another (available) language.

NTSC/PAL button
Select the NTSC/PAL in condition of DVD mode.

PBC (Play Back Control) button
When you play a VCD 2.0 disc the root menu screen will be displayed on the monitor.

REPEAT button
Repeats part or all of a chapter, title or track, or an entire disc.

A-B button
Repeats the selected segment. (Audio or Video)

ANGLE button
This button can't control the pretted camera angle.

VOL UP button
Increases the volume.

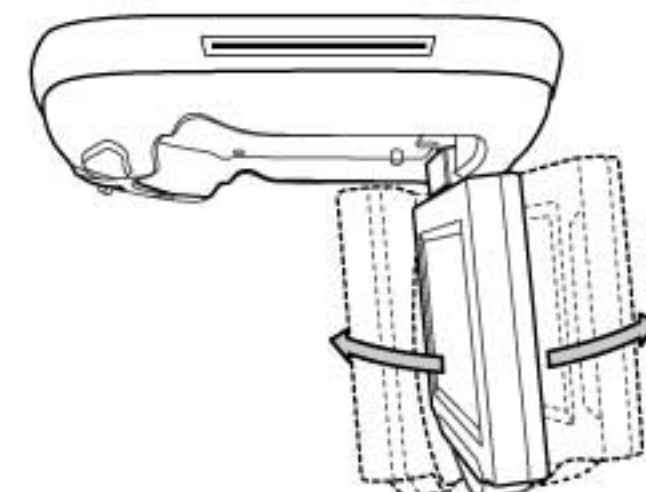

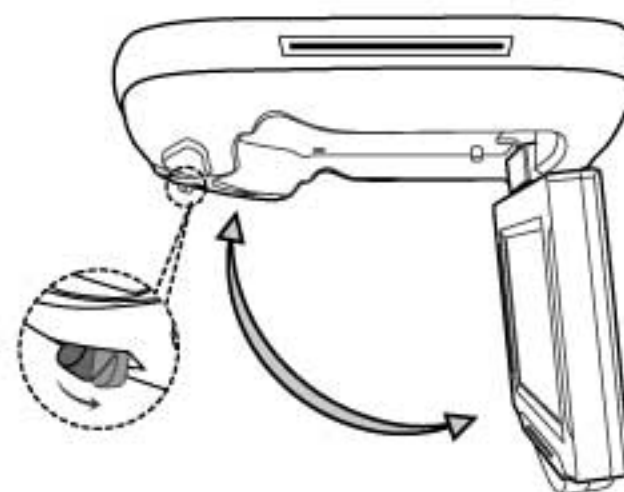

VOL DOWN button
Decreases the volume.

(These functions are valid for only some products.)

How to operate the monitor

Releasing the monitor

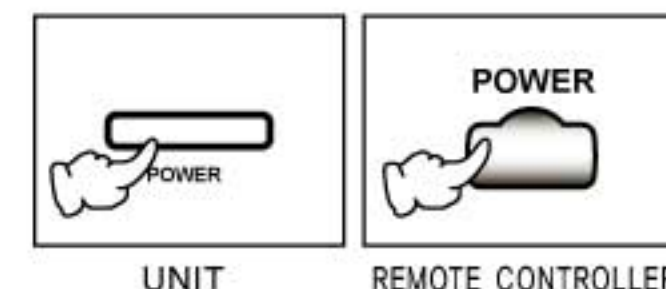

Push the open button (located at the front of your screen) and lower the monitor to the desired level. You can also adjust the swivel angle.

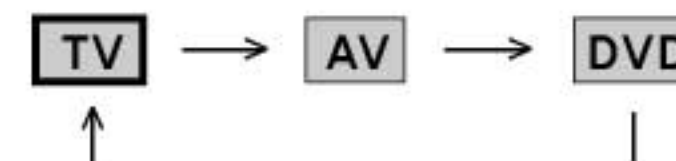

※ The monitor will automatically turn off when it is closed to the ceiling mount. When the monitor is opened again, it will automatically be turned on.

POWER and MODE select

1. Press the **POWER** button on either the remote control or the unit once to turn the power on. Press the same **POWER** button to turn your power off.

2. Press the **MODE** button on the remote control or the unit to achieve the desired TV Mode. Whenever you press the **MODE** button, you will select either the auxiliary input or the DVD mode.

■ How to select channels automatically

1. SETUP(A.MEMO) button on the remote control to select all available channels. (only TV mode)

※ Channel may not be selected in a bad RF signal region.

2. Select the channel you want by pressing arrow ▲/▼ button the remote control.

■ How to select channels by manual

Use to add or delete channels manually.

1. Select channels you want by pressing the number(0~9) buttons or arrow ▲/▼ button on the remote control.
2. Select ADD or DEL with the MENU(ADD/DEL) button on the remote control.

■ How to control the VOLUME

Listen to the Audio sound through the car installed speaker.

1. Bring up the on-screen picture control menu by pressing the PICTURE button on the remote control or the MENU button on the unit.

4. Select an open frequency on your car radio - 88.3, 88.5, 88.7, 88.9, and 90.1.

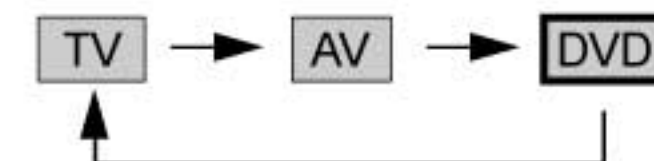

Playing a disc

■ Playing your DVD player

1. Press the POWER button on the monitor or on the remote control.

2. Press the MODE button on the remote control or the unit to select the desired DVD Mode.

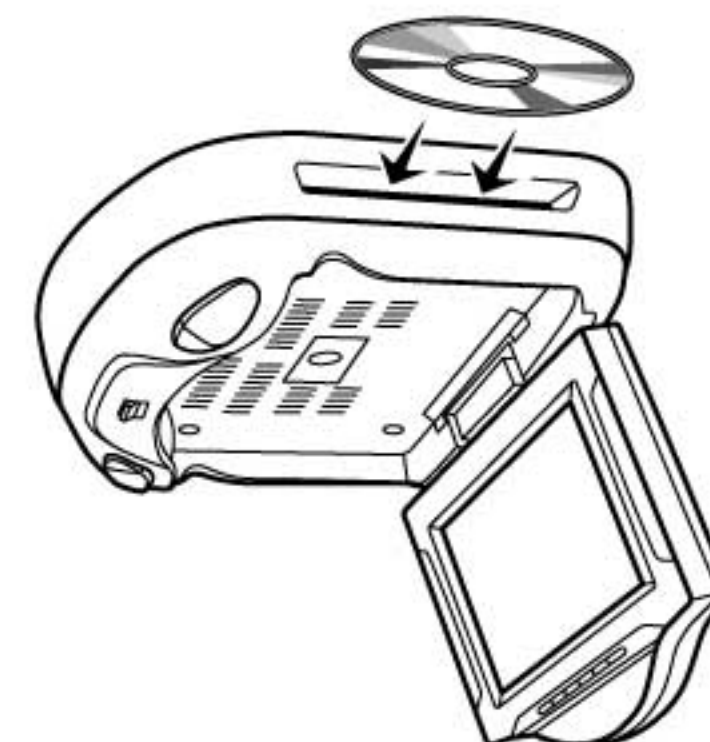

Whenever you press the MODE button, you will select either the TV mode the auxiliary input.

3. Insert the disc you want to play.

Most of DVD titles will be played automatically.

Caution : Insert the disc with the label side.

■ SETUP MENU-MAIN PAGE

⊘ An invalid button press.

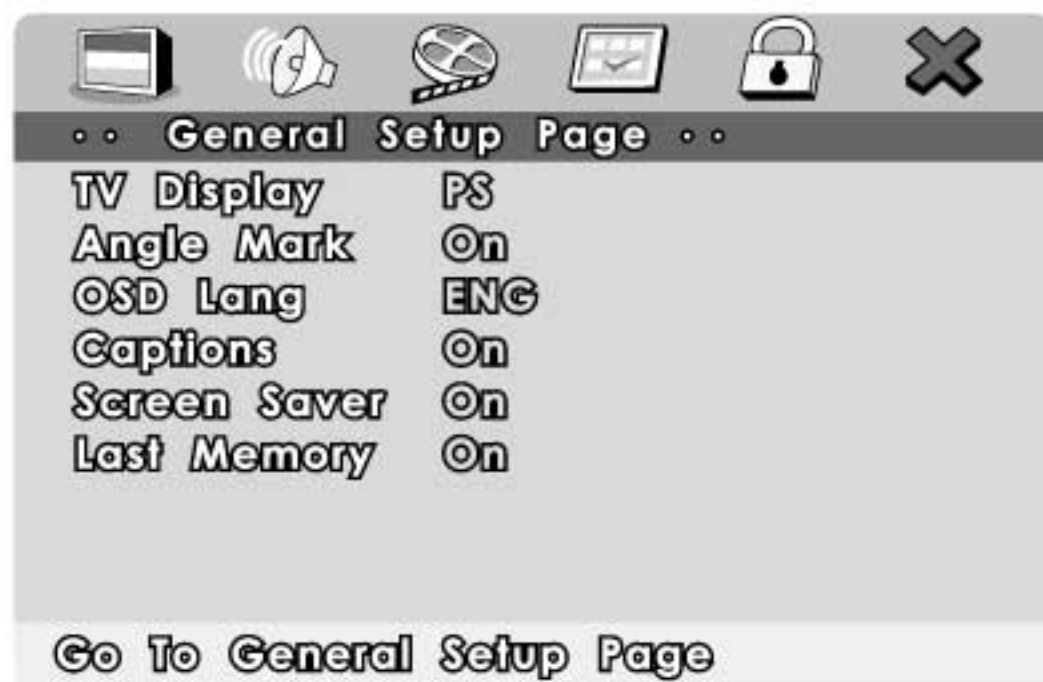

When this symbol appears, it indicates that an invalid button has been pressed. There are some differences between real functions and functions in manual.

You can easily modify setup information on the setup menu.

Caution : You should remove the disc from your DVD player first. Then press the (SETUP) button. If a DVD is playing when the (SETUP) button is pressed, the DVD player will be paused.

When the (SETUP) button is pressed, the monitor screen shows the setup menu as shown below. Select a menu category to modify according to individual preference.

1. Press the STOP button, if the disc is being played.
2. To call the SETUP menu, press the SETUP(A.MEMO) button.

3. Use the  button to find desired items.

4. To turn off the SETUP menu, press the SETUP(A.MEMO)button again.

■ GENERAL SETUP

1. TV DISPLAY

You can select a TV screen aspect ratio according to your TV. If the TV on which the movie is played "WIDE type, choose "WIDE". If it is of "4:3" type, choose NORMAL/PS(Pan & Scan) or NORMAL/LB(Letter BOX).

NORMAL / PS 4:3 PAN & SCAN

Choose this setting if you want the movie to fill the entire screen. (This might mean that the left and right edges won't be seen)

NORMAL / LB 4:3 LETTER BOX

Choose this setting if you want to see movies in their original aspect ratio. (The movie might appear with black bars at the top and bottom of the screen.)

WIDE 16:9 WIDE SCREEN

Choose this setting if your DVD Player is connected to a widescreen TV. (This option is available only if the disc has a 16:9 display aspect ratio.)

Caution

This option is available only when the disc has the function.

2. ANGLE MARK

You can set up so that the angle mark appears on scenes.

On : When selected, the screen will show angle mark during disc play.

Off : When selected, no angle mark is shown on the screen.

3. OSD LANG

Use this option to set the OSD language. When selected, change to set the on-screen display language.

4. CAPTIONS

Adjust caption selection.

On : Choose this setting to display captions.

Off : Choose this setting to close captions.

5. SCREEN SAVER

The screen saver is useful to prevent your display from becoming damaged. The screen saver picture appears when you leave the DVD player in stop mode for about two minutes.

6. LAST MEMORY

Adjusts last memory selection.

AUDIO SETUP

1. DOLBY DIGITAL SETUP

DUAL MONO

Use this function to set the input audio signal to fit into the speaker.

DYNAMIC

Use this function to change the setting from the factory. - Preset Off position.

2. EQUALIZER

EQ TYPE

This unit can produce a 3D surround effect, using 3D Surround Sound technology.

Choose the desired preset equalizer mode.

(None, Rock, Pop, Live, Dance, Techno, Classic, Soft)

BASS BOOST

This is enhanced at all levels without distorting other frequencies.

SUPER BASS

This is enhanced at all levels without distorting other frequencies.

TREBLE BOOST

This is enhanced at all levels without distorting other frequencies.

■ VIDEO QUALITY SETUP

1. QUALITY

SHARPNESS

Use this option to select screen sharpness.

Select screen sharpness using the direction ◀/▶ button and press the ENTER button.

BRIGHTNESS

Use this option to select screen brightness.

Adjust overall screen brightness using the direction ◀/▶ button.

CONTRAST

Use this option to select screen contrast.

Select screen contrast using the direction ◀/▶ button.

Contrast adjusts the image quality by increasing or decreasing the ratio of bright and dark screen section.

GAMMA

Select screen gamma using the direction ◀/▶ button and press the ENTER button. Gamma adjustment is to revive the dark screen section by raising the level of dark section, while leaving the bright screen section unchanged.

HUE

Select screen hue level using the direction ◀/▶ button.

SATURATION

Select screen saturation level using the direction ◀/▶ button.

LUMA DELAY

Select the Luma Delay menu and select the preferred video image quality.

■ PREFERENCE

1. TV Type

Choose a proper operating setting according to the color system of the TV Type - Multi system, NTSC, PAL.

- 1) Press the SETUP button during stop mode.
- 2) Press the ◀/▶ button to move to Preference.
- 3) Press the ▲/▼ button to move to TV Type.
- 4) Press the ENTER button.
- 5) Press the ▲/▼ button to select TV Type.

2. PBC (Paly Back Control)

This feature is only available when a (Super) Video CD is loaded. It allows you to disable or enable the PBC(Playback Control)menu of VCD discs.

- 1) Press the SETUP button during stop mode.
- 2) Press the ◀/▶ button to move to Preference.
- 3) Press the ▲/▼ button to move to PBC.
- 4) Press the ENTER button.
- 5) Press the ▲/▼ button to select On/Off.

3. AUDIO

Use the audio language menu to select the subtitle language that you prefer. If the disc you are playing has that language available, it will display subtitles in that language.

- 1) Press the SETUP button during stop mode.
- 2) Press the ◀/▶ button to move to Preference.
- 3) Press the ▲/▼ button to move to Audio.
- 4) Press the ENTER button.
- 5) Press the ▲/▼ button to select desired audio language.

4. SUBTITLE

Use the subtitle language menu to select the subtitle language that you prefer. If the disc you are playing has that language available, it will display subtitles in that.

- 1) Press the SETUP button during stop mode.
- 2) Press the ◀/▶ button to move to Preference.
- 3) Press the ▲/▼ button to move to Subtitle.
- 4) Press the ENTER button.
- 5) Press the ▲/▼ button to select desired subtitle.

5. DISC MENU

Use the Disc Menu option to select the language you want a DVD's disc menu to be displayed in (not the same as the player menu)

- 1) Press the SETUP button during stop mode.
- 2) Press the ◀/▶ button to move to Preference.
- 3) Press the ▲/▼ button to move to Subtitle.
- 4) Press the ENTER button.
- 5) Press the ▲/▼ button to select Disc Menu.

6. PARENTAL

The Parental feature is a rating limit system, like movie ratings. It works with DVD's that have been assigned a rating. This option lets you determine how your player will react to discs that contain movies that are rated (in the U.S.A., the Motion Pictures Association of America rates movies as G, PG, PG-13, ect.).

You decide which ratings require a password and which ones don't.

- 1) Press the SETUP button when stop mode.
- 2) Press the ◀/▶ button to move to Preference.
- 3) Press the ▲/▼ button to move to Parental.
- 4) Press the ENTER button.
- 5) Press the ▲/▼ button to select desired parental level.

7. COUNTRY REGION

Use this menu function to change the COUNTRY REGION.

- 1) Press the SETUP button when stop mode.
- 2) Press the ◀/▶ button to move to Preference.
- 3) Press the ▲/▼ button to move to Country Region.
- 4) Press the ENTER button.
- 5) Press the ▲/▼ button to select desired Country Region.

8. DEFAULT

If user selects reset from the setup menu, all the value of setup menu will be initialized by factory setting value. (Exception: Parental level, Region code and Password values willnot be changed)

- 1) Press the SETUP button when stop mode.
- 2) Press the ◀/▶ button to move to Preference.
- 3) Press the ▲/▼ button to move to Default.
- 4) Press the ENTER button.
- 5) Press the ENTER button to select reset.

■ PASSWORD SETUP

1. PASSWORD MODE

2. PASSWORD CHANGE

- 1) Select "Password Setup" sub item
- 2) Enter your old password, and new password in 4 digits.
- 3) Re-enter new password for confirmation then press the ENTER button.

POWER

Power ON/OFF button.

OPEN/CLOSE

Each press of the EJECT button changes the play mode as the text to the right illustrates. When you insert your DVD disc into the DVD player, "DISC LOADING" will appear on the screen. Then the DVD disc is played automatically.

MODE

Changes each Play mode.
