Hi Mike,

The test report is revised to respond to the two questions you raised. Please refer to the attached test report.

Hope to receive your grant soon if there are no other issues. Thank you again for your assistance.

Best Rgds,
WK

Hi Mike,

Thank you for your proactive action.

Miro is still investigating the issues. I will keep pushing for the answers.

Best Rgds,
WK

Notice_content

Question #1: Per section 15.35(c) of FCC rules, the max. pulse train can be used is 0.1 second for duty cycle factor. In the test report, 107 msecond was used. Please make necessary correction.

Question #2: Please explain the reason the FCC limits for all fundamental frequency has no value ? Please make necessary correction.

Best Regards

Mike Kuo

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information within 30 days of the original e-mail date may result in application dismissal and forfeiture of the filing fee. Also, please note that partial responses increase processing time and should not be submitted. Any questions about the content of this correspondence should be directed to the e-mail address listed below the name of the sender.
