RE:DECLARATION OF ANTENNA USED IN ONKYO RF REMOTE CONTROL
(RC1406902/05RF)
FCC ID: RCSRC140A

The Helical antenna used in the Onkyo RF Remote Control (RC1406902/05RF) is connected to the main PCB via a single pin header.

The antenna cannot be removed or replaced by user without taking the whole unit apart, and removing the printed circuits boards from the housing. In the course of doing that, it will void the service warranty provided by manufacturer, and might damage the unit if not careful.

The Helical antenna used is an omni antenna, manufactured by Murata Mfg Co.Ltd. The antenna carries the model number MQE45PA433 and has gain of -2dBi (antenna gain).

Sincerely,

Karl Reynders, General Manager,
Business Line Remote Control
