### RE: Updated Equipment Authorization Exhibit for FCC ID: RCSRC1533901

Dear Mr. Neumann,

On August 27, 2012, Philips obtained a grant of certification from the Federal Communications Commission ("Commission") for a remote control bearing the FCC Identification Number RCSRC1533901. Philips included with that filing a draft user manual, as permitted by Section 2.1033(b)(3) of the Commission's rules, which states "[a] draft copy of the instructions may be submitted if the actual document is not available."

Philips hereby submits an updated version of the user manual for the remote control bearing FCC ID Number RCSRC1533901. We respectfully request that the Commission replace the document that accompanied our original filing with this version. This user manual also is available for download on the Google Fiber website at this address: <http://fiber.google.com/devices/>.

Please do not hesitate to contact me with any questions about this submission.

Sincerely,

---
