To Whom It May Concern:

Subject: Sensor 4 – FCC Channel /Frequency plan

The Fluke Networks (AirMagnet) Sensor 4 SmartEdge sensor monitors the 802.11a/b/g/n traffic in the wireless environment and analyzes network packets for network statistics as well as security infringements.

The Sensor 4 SmartEdge Sensor operates in the following channel/frequencies as shown in the table. The sensor will passively scan or actively associate to a master device that is in the channel.

Table 1: FCC channels for Sensor4.

channel	frequency (MHz)
1	2412
2	2417
3	2422
4	2427
5	2432
6	2437
7	2442
8	2447
9	2452
10	2457
11	2462
36	5180
40	5200
44	5220
48	5240
52	5260
56	5280
60	5300
64	5320
100	5500
104	5520
108	5540
112	5560
116	5580
132	5660
136	5680

140	5700
149	5745
153	5765
157	5785
161	5805
165	5825
