

QCY-T3

User Manual

Overview

How to Wear

Adjust Mic towards mouth

TWS Mode

Open the lid to power on earbuds and two of them will auto pair with each other. Right earbud will auto turn to be connectable to phone when LED on left earbud turns off. On cellphone, search for QCY-T3_R and tap to connect both earbuds to cellphone.

(Please try the following steps if two earbuds fail to pair with each other)

Power off T3, touch both bars for about 20s or until LED blinks red and white. Put them into the case and close lid. Re-open the lid and two earbuds will auto power on and pair with each other. The right earbud will auto turn to be connectable to phone when LED on left earbud turns off. On cellphone, search for QCY-T3_R and tap to connect.

Note: two earbuds should pair with each other in 20s otherwise they will turn to be connectable to phone.

Answer Call

Double touch the bar to answer incoming call and double touch again to end it

Ignore Call

Touch the bar for 2s to ignore incoming call

Three-way Calling & Switch

Double touch the bar to answer incoming call from phone1. If another call is coming from phone2 in sync, double touch the bar to put the first call on hold while activating the second one. Switch: touch the bar for 2s to switch between active call and held call

Charging the Earphones

LEDs on earbuds will glow solid red when charging and turn to white for 1 minute once topped up

Put earbuds into the case to charge (pogo pins should be well-contacted)

Charging the Case

LEDs on the case will glow solid green once topped up

Charge the case via USB cable

Features

- BT v5.0 chipset transmits signal stably with low lag
- Easy touch control
- Crystal-clear stereo talking thanks to NC technology

Product Parameters

Model: In1915
BT version: V5.0
Standby time: approx. 150hr
Charging time: approx. 2hr
Music time: approx. 5 or 6hr
Talking time: approx. 5 or 6hr
Operation range: 10m(with no obstacle)
Battery type: li-ion
Battery capacity(earphones): 3.7V 60mAh
Battery capacity(charging case): 3.7V 600mAh
Input parameter(charging case): 5V 500mA
BT profiles: HSP/HFP/A2DP/AVRCP
(All technical data shall be subject to practical performance)

FCC Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
