Tips

- Please read this manual carefully prior to using the device and keep the manual properly.
- For the first time use, please fully power up both cellphone and charger. Low battery of charger will cause red LED solid of the charger or the charger can not power up for earphone. So please power up the charger before using.
- Please be sure that your Bluetooth earphone is in "pairing mode", if it can not be spotted by cellphone. As the device will exit "pairing mode", if unpaired or unconnected for a long time. You may need to set it to "pairing mode" again. Supposing any program error occurs in cellphone or this device, please restart cellphone or this device, or reset this device to factory setting.
- White LED will be solid during charging while off once fully charged, the charging process will last about 2 hours. (Bad contact caused by improper operation or other reasons may switch off white LED even when charging, which results in incomplete charge. So please plug in the charger properly and keep stable charging until white LED is off.)

Caveats

- Never disassemble or modify your headset for any reasons to avoid any damages and danger.
- Do not store the headset in extreme temperatures (under 0°C or over 45°C).
- Avoid using the indicator close to the eyes of children or animals.
- Do not use this headset during a thunderstorm to avoid irregular function and increased risk of electric shock.
- Do not use harsh chemicals or strong detergents to clean the headset.
- Keep the headset dry.

Notes: Please arrange using time properly since your hearing may be damaged by using the device for a long time.

For any after service, please contact local distributor

FCC Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:
(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
