Date: September 24, 2010

We, Meru Networks Inc., declare the device of FCC ID: RE7-AP1020, Model Name: AP1020i, doesn't have ad hoc function on "non-US frequencies"; in non-associated mode, that software and associated drivers will not initiate any transmission on DFS frequencies and the device does not support radar detection capability. This includes transmissions for beacon ad-hoc peer-to-peer modes.

Should you have any questions or comments regarding this matter, please have my best attention.

Sincerely yours,
