Unique marking of each Bodyguard 3

- Each device will have unique serial number that is also needed and used when communicating with the application and back-end.

- Serial number is in two formats; QR code and plain text

- QR code can be read e.g. with mobile phone's camera

- QR code, plain text serial number and HVIN (0301) are laser marked to device at production

QR code and serial number are only as example. HVIN will be 0301
