05 / Precautions

- Please use it in the indoor environment;
- Do not drop anything other than dry food into the food hopper. Otherwise, there is a risk of dysfunction or mistaken feeding;
- To prevent feeder from being hit by pets, it is recommended to place the feeder at the corner or against the wall;
- Please shield or organize the power cord well to prevent the pet from biting the cable and causing dangerous situations such as electric shock;
- This product is only suitable for DRY FOOD, and WET FOOD is prohibited.
- It is recommended to replace the desiccant once a month, and do not fall into the hopper, and NEVER use it if it is damaged.
- The pet food's shape and density will cause some deviations from the food hopper's capacity and the feeding unit's quantity.
- After each fill-up of the hopper, there may be deviation of two portions at the initial feeding time. It is recommended to calibrate manually! (Click the manual feeding button until food is fed!)
- Clean the food passage regularly to get the kibble out smoothly.
- DO NOT clean the main unit; instead, please wipe it with a rag. After cleaning the other parts, please dry it before reinstalling.
- Children must use under the guidance of adults.

06 / Certifications

FCC Instructions:
This product has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This product generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If the product does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
- Reorient or relocate the receiving antenna.
- Increase the separation between the product and receiver.
- Connect the product into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:
(1) this device may not cause harmful interference, and
(2) this device must accept any interference received, including interference that may cause undesired operation.
Warning: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the product.

FCC Radiation Exposure Statement:
The equipment complies with FCC Radiation exposure limits set forth for uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator and your body.
