

Symbol  
ISO 13715

|                     |           |          |
|---------------------|-----------|----------|
| Edge w/o indication | thickness | ≤ 2      |
| small step-height / | internal  | 0...+0.2 |
|                     | external  | 0...+0.2 |

|  |   |   |
|--|---|---|
| Permissible deviation for geometrical features w/o indication. | — | □ |
|  | ↗ | ↖ |

|   |                                  |          |           |            |
|---|----------------------------------|----------|-----------|------------|
| Perm. deviation (mm) of angular dim. w/o tolerance per 100 mm | Basic size range of shorter side | >10...50 | >50...120 | >120...400 |
|   | Tol.-class                       | ±1.7     | ±0.9      | ±0.6       |
| f / m   |                                  |          |           |            |
| c   | ±2.5                             | ±1.7     | ±0.9      | ±0.4       |

|  |                  |           |            |             |       |
|--|------------------|-----------|------------|-------------|-------|
| Permissible deviation for linear dimensions without tolerance indication | Basic size range | >30...120 | >120...400 | >400...1000 | >1000 |
|  |                  | ±0.15     | ±0.2       | ±0.3        | ±0.5  |
|  |                  | ±0.3      | ±0.5       | ±0.8        | ±1.2  |

|                 |        |          |         |           |            |             |       |
|-----------------|--------|----------|---------|-----------|------------|-------------|-------|
| Tolerance class | ...0.5 | >0.5...6 | >6...30 | >30...120 | >120...400 | >400...1000 | >1000 |
| f               | ±10%   | ±0.05    | ±0.1    | ±0.15     | ±0.2       | ±0.3        | ±0.5  |
| m               | ±20%   | ±0.1     | ±0.2    | ±0.3      | ±0.5       | ±0.8        | ±1.2  |
