RE: FCC ID: LMSWDJHNEX_ATCB001566
Attention: Leon Paul Kass

I have a few comments on this Application. Please note that further comments may arise in response to answers provided to the questions below.

1. Please provide internal photos of both sides of all boards in the amp.
2. Please note that as this is an end user item, the internal photos cannot be held confidential. Please revise the confidentiality request to remove the internal photos from the list.
3. Please provide the manual for this application.
4. Please note that it appears that this application is more of a composite than of a device that operates over the same frequencies in two rule parts. It appears that the 806-825MHz and the 850 to 869MHz are for part 90 only while the 1850-1910MHz and the 1930 – 1990MHz are for Part 24 only. Please clarify the rule parts for each frequency band on the 731.
5. Please provide the MPE report as a separate exhibit. This is a requirement of the FCC in the upload process.

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information may result in application termination. Correspondence should be considered part of the permanent submission and may be viewed from the Internet after a Grant of Equipment Authorization is issued.

Please do not respond to this correspondence using the email reply button. In order for your response to be processed expeditiously, you must submit your documents through the AmericanTCB.com website. Also, please note that partial responses increase processing time and should not be submitted.

Any questions about the content of this correspondence should be directed to the sender.
