Subject: Revised request for withholding from public disclosure schematics, block diagrams, assembly drawings, operational specification, bill of materials and/or theory of operation.

RE Correspondence Reference Number 34812
FCC ID: RFM-OWS2420-90

Gentlemen,

Strix Systems, Inc., would like to request that all schematics, block diagrams, assembly drawings, operational specification, bill of materials and/or theory of operation submitted with our application for certification be withheld from public disclosure per Section 0.459 of the FCC rules.

This request is made under the provisions of Section 0.457(d) of the Commissions rules, and Section 552(b)(4) of the Freedom of Information Act. These sections authorize the withholding from public inspection those materials which would be privileged as a matter of law if retained by the person submitting them, and materials which would not customarily be released to the public by that person. These products are not marketed to, made available for purchase by, or accessible to, the general public.

Sincerely,

A handwritten signature in black ink that reads 'Steve Coffelt' in a cursive, slightly slanted script.

Steve Coffelt
Director, Product Management
Strix Systems, Inc.
