2011.12.6

Dear: Reviewing Engineer

We, Telit Wireless Solutions Co., Ltd., hereby requests for licensed modular transmitter approval of our device, described as follows:

FCC ID: RI7DE910-DUAL

Request for modular approval

Transmitter Module Characteristics

1. The modular transmitter must have its own shielding.

The DUT does provide RF shielding. Refer to DUT picture.

2. The modular transmitter must have buffered modulation/data inputs

All inputs to the modules are buffered through logic or microprocessor inputs.

3. The modular transmitter must have its own power supply regulation

The DUT has its own power supply regulation it's integrated in PMIC chip

4. The modular transmitter must comply with the antenna requirements of Section 15.203

Device is equipped with antenna SMT pad. Refer to H/W user guide.

5. The modular transmitter must be tested in a stand-alone configuration

The DUT was tested in a stand-alone configuration via a test kit. Refer to H/W User Guide.

6. The modular transmitter must be labelled with its own FCC ID number

Refer to label provided.

7. The modular transmitter must comply with any specific rule or operating requirements applicable to the transmitter and the manufacturer must provide adequate instructions along with the module to explain any such requirements.

Refer to H/W User Guide.

8. The modular transmitter must comply with any applicable RF exposure requirements.

MPE was calculated.

Sincerely,

A handwritten signature in black ink, appearing to read "Brian Tucker". The signature is fluid and cursive, with a long horizontal stroke at the end.
