

We,

**Telit Communications S.p.A**

Of:

**Via Stazione di Prosecco, 5/b  
34010 Sgonico (TRIESTE)  
ITALY**

request to apply for modular approval as per FCC 15.2 for:

FCC ID: *RI7GE864G2*

Product: *GE864-GPS*

and we declare than:

1. The module has its own shielding and does not rely on any shielding that could be introduced as a result of integrating the module into a final product. The same apply on the bottom where module has own ground plane integrated in the PCB.
2. The module has interfaces that are digital and do not allow excessive data rates or over-modulation to occur.
3. The module has on-board power supply regulation and is therefore not reliant on any PSU regulation from the host equipment.
4. The external antenna connector provided on the pcb shall be connected as described in User Manual section 7.2
5. The module has been tested as a stand-alone device.
6. The module will be labeled with a unique FCC Identifier and the integration instruction will document the requirement for an external label if the module label will not be visible in the final product.
7. The integration instructions have been provided with this application.
8. The module complies with the RF Exposure requirements defined for devices operated at >20cm from the user.

Trieste, **10th August 2011**
