RE: Supersede Request Letter

FCC ID: RI7HE910NAV2

Here are reasons for requesting FCC Part 22H & 24E, IEEE C95.1 MPE, User manual and FCC grant note.

The applicant would like to correct typo when calculating the max allowed antenna gain.

The correct allowed max antenna gain can be used should be

7.43dBi for GSM850MHz band, 3dBi for PCS band, 8.45dBi for WCDMA band V, and 3dBi for WCDMA band II

Below exhibits will need to be supersede.

MPE evaluation , RF report , User Manual , and FCC grant note.

Thank you,

A handwritten signature in black ink, appearing to read 'Murphy Wang'.
