Modular Approval Statement

Date: 2015-04-20

FCC Certification Number: RI7UL865N3G

Only applicable for IC certification:

IC Company Number: 5131A

UPN: UL865N3G

HVIN: (Hardware Version Identification Number) 0H0

PMN: (Product Marketing Name) UL865-N3G V2

TO WHOM IT MAY CONCERN

Pursuant to Paragraphs RSP-100 Issue 10 November 2014 Item 7.3 and CFR § 15.212, we herewith declare for our module.

Modular approval requirement	Yes	No
(a) The radio elements must have the radio frequency circuitry be shielded. Physical/discrete and tuning capacitors may be located external to the shield, but must be on the module assembly.	X	
(b) The module shall have buffered modulation/data input(s) (if such inputs are provided) to ensure that the module will comply with the requirements set out in the applicable RSS standard under conditions of excessive data rates or over-modulation.	X	
(c) The module shall have its own power supply regulation on the module. This is to ensure that the module will comply with the requirements set out in the applicable standard regardless of the design of the power supplying circuitry in the host device which houses the module.	X	
(d) The module shall comply with the provisions for external power amplifiers and antennas detailed in this standard. The equipment certification submission shall contain a detailed description of the configuration of all antennas that will be used with the module.	X	

(e) The module shall be tested for compliance with the applicable standard in a stand-alone configuration, i.e. the module must not be inside another device during testing.	X	
(f) The module shall comply with the Category I equipment labeling requirements and CFR § 15.212(a)(1)(vi).	X	
(g) The module shall comply with applicable RSS-102 exposure requirements and any applicable FCC RF exposure requirement which are based on the intended use/configurations.	X	
<i>Only applicable for IC certification:</i> (h) Is the modular device for an Industry Canada licensed exempt service?		X ₁
<i>Only applicable for FCC certification:</i> (i) The modular transmitter complies with all applicable FCC rules. Instructions for maintaining compliance are given in the user instructions.	X	

Note 1: The module is for use in equipment that is subject to licensing.

If you have any questions, please feel free to contact us at the address shown below

Best Regards,

Antonino Sgroi
