27<sup>th</sup> June 2007

**Ref: Application for Approval/Waiver for Class B AIS Unit**

**Grantee ref: RIK, FRN 0008512048**

**USCG Approval Number: 165.156/4/0**

**EU BAPT Approval Number: NC/13095**

**Dear sir/madam**

I believe you now have a complete set of documents supporting our application form 731, covering our application for FCC approval/waiver for our S.287 *SeaTraceR* Class B AIS Transponder for marine applications. Our product is built using the PCB assembly from Software Radio Technology of the UK, who have also sought your approval/waiver, and they have authorised access to their detailed documents in support of our application (see Attestation section).

We have assumed for the label drawings that, if successful, our FCC ID for this product would be RIKS287.

Confidentiality: We would request that the Parts List and Schematics be marked as 'Confidential' for commercial reasons.

Please direct any further correspondence regarding the approval to myself, and please let me know if there is any further information I can supply to further support our application. Our US agent, Mr Robert Negrón, of Negrón Marine Consultants, may also be able to assist with any queries.

Please accept my thanks for your assistance during this application.

Yours faithfully

C R Watts
