20<sup>th</sup> July 2007

Ref: Correspondence number: 33391

Other Refs: Application for Approval/Waiver for Class B AIS Unit

Grantee ref: RIK, Form 731 ref: EA370463

FRN 0009600800

USCG Approval Number: 165.156/4/0

EU BABT Approval Number: NC/13095

BSH Certificate Number: 46162/4320548/07

Dear sir/madam

We would like to request confidentiality for documents submitted in support of the above mentioned approval. The market for AIS Class B Transponders is complicated by the fact that many vendors have bought in technology under license arrangements from one supplier. This makes it very difficult for smaller companies like ourselves to design in and maintain any kind of competitive edge over the bigger corporations. We would respectfully ask that our parts list, equipment schematics, test instructions and internal photographs be maintained as confidential.

And during the approval process, we feel it would also be beneficial to protect the User Manual, Attestation Statements, License authorisation and Operational Description. As a small company it is important to protect our hard work and use of precious resources in preparing these documents.

I have today uploaded a later revision of the FCC ID placement document, and have also added our BSH certificate to the test results folder. Please let me know if there is anything else you require for your consideration. Please also accept my thanks for your assistance during this application.

Yours faithfully

C R Watts
