Dear sir/madam

We would like to request confidentiality for documents submitted in support of the above mentioned approval. The market for AIS Class B Transponders is complicated by the fact that many vendors have bought in technology under license arrangements from one supplier. This makes it very difficult for smaller companies like ourselves to design in and maintain any kind of competitive edge over the bigger corporations.

We respectfully ask that our parts list, equipment schematics, and operational descriptions be maintained as confidential.

Yours faithfully
