

1.2. Operational Description

The EUT is 2.4GHz wireless GPS logger provides real time coordinate logging and easy-to-use trip guiding service. The M-241xx can record up to 130,000 positions, each position including longitude, latitude, time, and altitude.

The log file can be downloaded for analysis via USB connection. You can combine these positions with your Digital camera photos to share the track histories and photo locations to mapping application software such as Google Earth.

Position information, moving speed, free logging volume and the date & time can be shown on the LCD display directly at any time. The M-241xx supports distance and time logging modes, kilometer and mile distance units, and 3 languages (English, Traditional Chinese, and Simplified Chinese).

Because the M-241xx provides a Bluetooth interface, you can use it freely while driving without the clutter of cables.
