RE: CastleNet Technology

FCC ID: RK9-WM1210

I have a few comments on the above referenced Application.

General Requirements

- 1) The FCC ID given on page 3 of the users manual appears incorrect. Please correct.
- 2) Since this is a modular approval application, please provide external photographs only of the PCMCIA Card and antenna.
- 3) Please provide justification for only having one antenna attached during testing. Is the approval expected to only cover one antenna? What about dual antenna configurations?
