Parrot

Parrot CK3000 EVOLUTION Black Edition

Get your hands on the best technology in terms of onboard telephony

Parrot's development teams have drawn on their expertise in *Bluetooth*® technology, voice recognition and sound processing to streamline the operation of the CK3000 EVOLUTION Black Edition in order to guarantee clear and smooth conversations, despite the noise particularly inherent in driving.

Make calls with the greatest of ease via voice recognition and the browser button

When users get in their car, they start the engine and the kit immediately connects to their mobile phone. Thanks to the voice recognition feature, drivers say a name and the kit automatically dials the number. Keep your hands on the wheel and guarantee your safety. By intuitively turning the browser button, the kit states the menu functions, meaning that drivers can check and manage their voicemail, etc.

Design and audio quality: choose a kit that integrates seamlessly into the car

It features a discreet and extremely sober design and fits seamlessly inside the car. In the event of a call, the car radio automatically cut outs, so that the speakers can transmit the conversation, and the microphone clearly reproduces the sound of your voice.

Take advantage of the universal *Bluetooth* solution

The CK3000 EVOLUTION Black Edition is compatible with all *Bluetooth* mobile phones on the market.

Wireless technology

The *Bluetooth* wireless technology enables voice and data to be sent via a short distance radio link. It connects a wide range of electronic equipment without requiring additional cables. Furthermore, it extends the communication possibilities for mobile phones and a large number of devices. The *Bluetooth* Stereo (A2DP) profile uses the same short distance radio frequencies to transport musical files from one peripheral to another one.

Phone & device compatibility

As Parrot products are 100% *Bluetooth* compatible, they are compatible with almost every *Bluetooth* mobile phone. Refer to www.parrot.com
Example: Asus, Audiovox, BenQ, Blackberry, Eten, Grunding, HP, HTC, I-Mate, LG, Motorola, NEC, Nokia, Palm Treo, Panasonic, Qtek, Sagem, Samsung, Sendo, Sharp, Siemens, Sony Ericsson, SPV, Telital, VK mobile…

Technical and commercial specifications

Parrot CK3000 EVOLUTION Black Edition
Bluetooth hands-free car kit

Specifications
Unidirectional microphone: noise reduction, echo cancellation, voice recognition up to 150 names
Speakers: uses the vehicle's speakers
Pairing: pairing up to 3 phones

Dimensions
Keypad:
50 x 26 x 19 mm – 32 g
Bluebox:
135 x 30 x 58 mm – 110 g

Package contents
1 electronic control unit
1 external microphone
1 power supply cable
1 mute cable with ISO connectors
1 Keypad, fitting accessories, user guide

Standards
CE, e2, FCC, RSS210
