

Parrot

3200 LS-COLOR

Drive, Talk, Be!

Introducing the first Bluetooth® hands-free car kit with a color LCD

Select one of the hifi ringtones and color wallpapers available to personalize your kit.

Store and access your phonebook

Your contacts are stored in the memory of the Parrot 3200 LS-COLOR. The voice recognition feature enables numbers to be dialed automatically by stating the contact's name: "Call John." If photos are stored with your phone contacts, they can be displayed on the screen.

New Parrot universal mute cable

The new Parrot universal mute cable comes with an additional adapter for any car brand. Please visit our web site for car models details. An added bonus is the new Parrot control module which can be updated without removing it.

Take advantage of a universal Bluetooth® solution

The Parrot 3200 LS-COLOR is compatible with Bluetooth® telephones.
