### Request for Reassessment / Class 2 Permissive change

**FCC-ID: RKXFC6000TN**  
**FCC-ID: RKXFC6000TS**

**Grantee:** PARROT

**Equipment class:** Digital Transmission System / Bluetooth Module

To whom it may concern:

We hereby request a Class II Permissive Change for the above listed devices to cover following performed modifications:

#### Addition of a Bluetooth Low Energy feature (BT Core Version 4.0):

On these modules, a dual-mode RF chip is implemented, which allows to make available both BT features 3.0 or 4.0 / Low Energy.

BT Low Energy link will offer a low data rate for digital transmissions between Telecommunications devices and host systems including the module, with the following main characteristics:

- GFSK modulation
- FHSS technique
- 40 channels, with a channel bandwidth of 2 MHz (2402 to 2480MHz)

Concerned products:

**PARROT Multimedia module FC6000TN**  
**PARROT Multimedia module FC6000TS**

Products technical files:

This feature addition has no impact on hardware equipment of the different FC6000TN / TS variants: these ones remain identical (same electrical schematic, same PCB layouts, same BOM) for BT3.0 or BT4.0 versions.

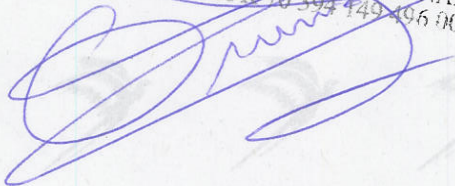

# Parrot®

Please, contact us if you have additional questions concerning this request.

Best regards,
