Request for label placement regarding application for certification of FCC ID: **RKXMOGO**.

According to Labelling requirements section 15.19 paragraph (5), you authorized for small device or for such use that it is not practicable to place the statement under paragraph (a), the information required is placed on the container in which this device is marketed. On the product MOGO, Parrot have a small place to put the label, on the upper part. It is not possible for Parrot to put this label directly on the bottom side. Thus, Parrot can not place the statement on their label. However, Parrot has already put this statement in the user guide, and directly on the container, as exposed in the attached file.

On their previous products (FCC ID: RKXWVW REFERENCE: JOB 2796FC6 or WVW). Parrot did not add this warning statement, but it is always written in our user manuals, in General Information part, and on product packaging.

Sincerely,

Arezki Guerrab

A handwritten signature in blue ink, consisting of several loops and a horizontal line at the bottom. The name 'Guerrab' is partially legible within the signature.
