Function	Problem description	Change
<u>Fixing system on the front casing</u>	The robustness and ergonomoy of the system fixed by 4 hooks on the front casing is not persuasive.	Removal of left hooks to a magnetic solution (2 magnets in the casing and 2 magnets in the front panel).
<u>Line out connector on front panel</u>	Design for aesthetic reasons	Remove the jack hole on the underside of the front panel.
<u>Microphone</u>	Design for aesthetic reasons	Removal of micro holes on the front panel.
<u>Principal rotator</u>	Modified design and materials for aesthetic and ergonomic reasons.	Plastic materials instead of aluminum. Diameter increased slightly.
