Subject : Request to put the product label inside the battery compartment.

Product : SIRIUS

FCC ID : RKXSIRIUS

Dear Sir/Madam,

We, PARROT SA company, would like to request to put the label of the product inside the battery compartment. In fact our product (SIRIUS) have a specific design and the product aspect don't agree to put the label on it. However we suggest to put the label into the battery compartment. The battery is delivered outside it's compartment and the label is visible for users. We add that the position of the label is clearly visible in the user manual.

If you have any queries, please do not hesitate to contact us.
