Gentlemen,
The North American version (FCC and IC) of the User Manual for the TONGA will include the following statements:

FCC

(§15.21 Information to the User)

"Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment"

(§15.19 Labelling Requirements)

"This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation"

The FCC statement §15.19 Labelling Requirements is not placed in the label of the equipment due to small size of the device. The required text is already included in the user guide.
