Columbia, MD 21046

Subject: Ad-hoc Mode Declaration

FCC ID: RMXHSBUB-SDS

We, Intel Corporation, declare that the device FCC ID: RMXHSBUB-SDS, disabled the ad-hoc peer-to-peer functionality. The software and associated drivers will not initiate a network in the following frequency bands.

5150 MHz – 5250 MHz

5250 MHz – 5350 MHz

5470 MHz – 5725 MHz

In the DFS frequency bands, the device operates as a client device and does not support radar detection capability. Additionally the 5600 MHz – 5650 MHz frequency band is notched in this device when marketed in US and Canada.

In the 2400 MHz – 2483.5 MHz frequency range ad-hoc capabilities are disabled on frequencies not supported within the United States. The end user is not given the accessibility to change the above mentioned settings.

If you have any questions please feel free to contact Yan Rao at +86-21-6116-6159.

Sincerely,

A handwritten signature in cursive script that reads "Yan Rao".
