Re: Label information

Gentlemen:

The label material is 2.3 mil white polyester with a 1.1 mil acrylic permanent self adhesive. The adhesive is UL approved for use with many substrates including ABS plastic which is the material used for our enclosure. The manufacturer guarantees that the label will remain adhered for the lifetime of our product.

The following page is a sample rendering of our rear label.

Sincerely,

John O'Brien  
Senior Principal Hardware Engineer  
Sensicast Systems, Inc.
