Request for limited single modular approval

FCC ID: ROH-DAH7974  
IC: 10895A-DAH7974  
Model No.: DAH7974

- (i) The module has a shielded enclosure.
- (ii) The module has buffered modulation/data inputs.
- (iii) The module has its own power supply regulation.
- (iv) The module uses an external antenna and is professionally installed. The antenna gain is typically 12 dBi.
- (v) The module was tested inside the TB3 base station platform.
- (vi) The modular is labelled with the FCC ID, IC registration number and model number and is readily accessible inside the base station platform.
- (vii) The module complies with the requirements of FCC part 90 and Industry Canada RSS-119 Issue 11.
- (viii) The module complies with the RF exposure requirements of FCC 1.1310 and Industry Canada RSS-102.
