Regarding ROR00000005 Part 96 application

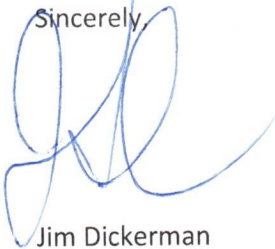

We would like to apply for a Class II Permissive Change as indicated in the 178919 D01 Permissive Change Policy v05r03, paragraphs 4.e and 5.a.

More specific we would like to add 2CC and 3CC system functionality as detailed in the updated FW300i-B48-00-NA -Radio Operational Description rev 3.docx.

Through the present letter we confirm that, adding the 2CC and 3CC SW functionality doesn't require:

- A change in the maximum output power rating of the original authorization
- A change in the system design

Sincerely,

A handwritten signature in blue ink, appearing to be "JD", written over the word "Sincerely".
