

## **CLASS II PERMISSIVE CHANGE APPLICATION**

09/05/2013

FCC ID: ROSGTM601W

FCC ID: ROSW2CBW003

**TO WHOM IT MAY CONCERN**

Remote Diagnostic Technologies Ltd. request a Class 2 Permissive Change of the presently authorised modules under FCC ID: ROSGTM601W to permit co-location and simultaneous transmission with the W2CBW003 module (FCC ID: ROSW2CBW003).

The purpose of the request is to allow the module integration into Remote Diagnostic Technologies Ltd.'s portable host equipment, the Tempus Pro.

EMC tests were performed to ensure continued compliance with the appropriate FCC rule parts. Plus A SAR evaluation has been performed to take into account the portable usage condition.

The Tempus Pro is a vital signs monitor designed for use in remote locations by trained personnel. The device monitors a variety of vital signs and can transmit the data via existing wired or wireless telecommunications that are available locally in the remote location.

No parts of the modules have been modified as a result of their integration into the Tempus Pro.

Yours sincerely

Chris Hannan  
Programme & Regulatory Affairs Director
