

Labels for the Larco Transmitter (Bare Board version as well as each of the five packaged versions)

Ultra-Small 433MHz Transmitter Label for use on the transmitter itself and on each of the five package versions: The version for the transmitter is 2" x 0.5" with the writing centered in the right half of the label. The left side is left unprinted and is used to wrap around the battery cable of the transmitter and adhere to the back of the other side of the label. The packaged version is 1.25" x 0.75" and is affixed to the back side of the plastic box of each of the five package versions.
