Re: Supersede request for FCC ID: **RRK-C2H**; Granted on **07/18/2012**

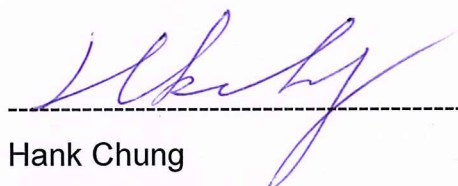

To Whom It May Concern:

Per request by the applicant, the internal EUT photo was retook with the main board of removing glue and solder, no any differences for the rest of photos.

To prevent misunderstanding to the public, we would like to request the FCC to supersede the exhibit described as "internal photo" outlined below with red color. A new file will be submitted to replace the previous one with more clear photos.
