Dear Vicki,

The application review is complete. There is one item regarding the user manual that needs to be addressed.

Q1 Although the modular request letter indicates that the user will be advised of the 20 cm separation requirement, there is no statement in the user manual. Please revise the user manual last page to include instructions to users and installers that the module must be installed in such a way to maintain a minimum separation of 20 cm between antennas and persons.

Best regards,

Tim Dwyer

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information within 30 days of the original e-mail date may result in application dismissal and forfeiture of the filing fee. Also, please note that partial responses increase processing time and should not be submitted. Any questions about the content of this correspondence should be directed to the e-mail address listed below the name of the sender.
