

A photograph of a wooden table with a natural wood grain finish. On the table, there are two black electronic devices, possibly power supplies or small computers, with several black cables connected to them. The cables are somewhat messy and loop across the table surface. In the background, there is a window with light-colored vertical blinds. The wall to the left of the window is covered in light-colored horizontal siding. The table is supported by white legs, and a small black wheel is visible under one of the legs.

Mobile configuration

A photograph showing a portable configuration of a device on a wooden table. The device is a small, white, cylindrical component with a black top section and a black cable extending from it. The cable is connected to a black power source or another device, which is partially visible at the bottom of the frame. The table is made of dark wood and has several small metal fasteners or clips scattered on its surface. In the background, there is a window with white curtains and a wooden door frame. The text "Portable configuration" is overlaid on the bottom right of the image in a white, italicized font.

Portable configuration

A photograph showing a portable configuration of a mobile device. The device is a small, silver, rectangular unit with a screen, resting on a white, cylindrical base. It is connected to a pair of white earbuds via a white cable. A black cable is also connected to the device. The setup is placed on a large, dark brown wooden table. In the background, there is a white wall with horizontal siding, a square vent with a metal mesh, and a wooden door. The text "Portable configuration" is overlaid in white, italicized font at the bottom of the image.
