## XM Satellite Radio Receiver

Important: This manual contains important safety and operating information. Please read, understand, and follow the instructions in this manual. Failure to do so could result in personal injury, death, and/or damage to your roadyXT, accessories, and/or to your vehicle or property.

**FCC ID: RS2SA10177B**

**Please note that the power cable that has been supplied with your device is supplied with permanently attached ferrite beads at each end. It is the responsibility of the user to use the cable with the ferrite beads.**

**The user is cautioned that changes or modifications not expressly approved by XM Satellite Radio Inc. can void the user's authority to operate this device.**

**This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:**

**(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation**

**This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation**

**This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:**

- Reorient or relocate the receiving antenna.**
- Increase the separation between the equipment and the receiver.**
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.**
- Consult the dealer or an experienced radio/TV technician for help.**

 **Warning: The FCC and FAA have not certified the Delphi XM roadyXT Satellite Radio Receiver for use in any aircraft (neither portable nor permanent installation). Therefore, Delphi cannot support this type of application or installation**

**This is the safety alert symbol. It is used to alert you to potential personal injury hazards. Obey all safety messages that follow this symbol to avoid possible injury or death.**

## A Brief History

The new Delphi roadyXT Satellite Radio Receiver—smaller, lighter, and more versatile than the best-selling Roady2®.

- Dock your roadyXT into cradles that are easily installed in your vehicles or your home. One simple motion connects your roadyXT's power, audio, and antenna.
- A built-in FM transmitter allows you to hear XM programming on your vehicle's FM radio, using any unused frequency on the FM band.
- Exclusive Info Extras and Stock Ticker bring you personalized stock information, sports scores, and more.
- TuneSelect™ alerts you when your favorite song is being played on any XM channel.

### About Delphi

Delphi is a worldwide leader in mobile electronics, vehicle components, and audio technology. Delphi created the first in-dash car radio in 1936 and continues its strong tradition of innovation in the audio industry. Now Delphi technology has helped make satellite radio a reality, and Delphi continues to expand its in-vehicle and consumer electronics technologies. With its exciting line of satellite radio products, Delphi offers a broad portfolio of products to answer a wide variety of information and entertainment needs—in the vehicle, home, office, or virtually anywhere.

### About XM

XM Satellite Radio is the nation's leading provider of satellite radio with more than 4 million subscribers. XM offers more than 160 digital radio channels: 67 commercial-free music channels, ranging from hip hop to opera, rock to bluegrass, big band to reggae; 64 talk radio channels, including news, sports, comedy, and children's programming; and 21 channels of round-the-clock traffic and weather reports. Subscribers pay \$12.95 a month for the XM service, which was named Best Radio Service by the music industry's leading magazine *Billboard* at the 2004 Digital Entertainment Awards. Exclusive programming on XM includes Major League Baseball® games for every team, all season long. You can listen to XM on a variety of satellite radio receivers for the vehicle, home, and portable use. In-dash XM radios are available in more than 120 vehicle models for the 2005 model year. XM is broadcast via satellite from coast to coast, so you can listen to XM continuously as you travel across the country.

\*To receive the XM service, you must subscribe to XM. Available in the continental United States and Canada only. Satellite radio reception depends on the ability of the antenna to receive a signal. The signal may not be available in buildings or if obstructed (e.g., by mountains, trees, bridges, etc).

## Let's Get Started

### First, some important reminders

We know you're eager to turn on your new roadyXT and listen to XM. Please take a moment to remember the following:

**Warning:** This manual contains important safety and operating information. Please read, understand, and follow the instructions in this manual. Failure to do so could result in personal injury, death, and/or damage to your roadyXT, accessories, and/or to your vehicle or property.

**Warning:** When using this product it is always important to keep your eyes on the road and your hands on the wheel. Not doing so could result in injury and/or death to yourself or to others and/or in property damage.

**Caution:** Use your roadyXT only with the enclosed components or approved accessories. Do not modify wires or other connectors in any way; you could cause a malfunction, which could damage your roadyXT and will void your warranty.

**Caution:** Refrain from using food or drinks near your roadyXT. Spilling food or drinks on the unit can damage it. Also, improperly installing the antenna cable can cause leaks, which can damage your roadyXT and/or your vehicle.

### Controls

power

menu – access advanced features and configuration options

disp – change what you see on the display

pre/dir – select between direct channel entry or up to 30 presets

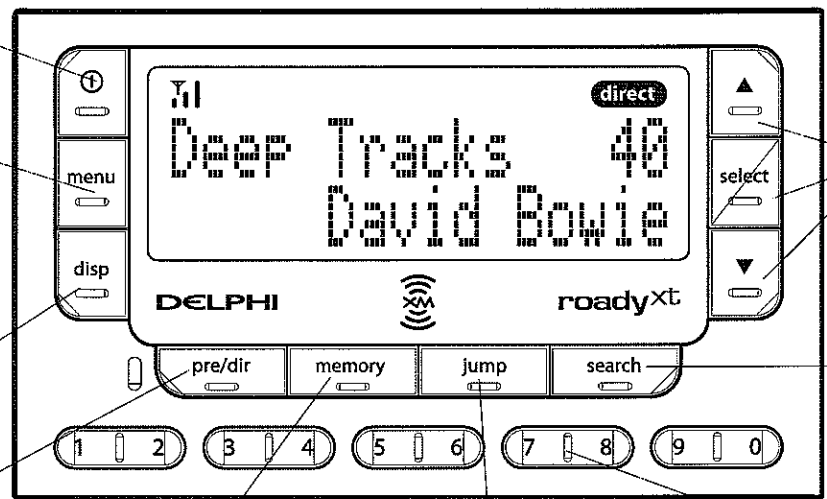

memory – save and recall up to 20 artist names or song titles

## Display

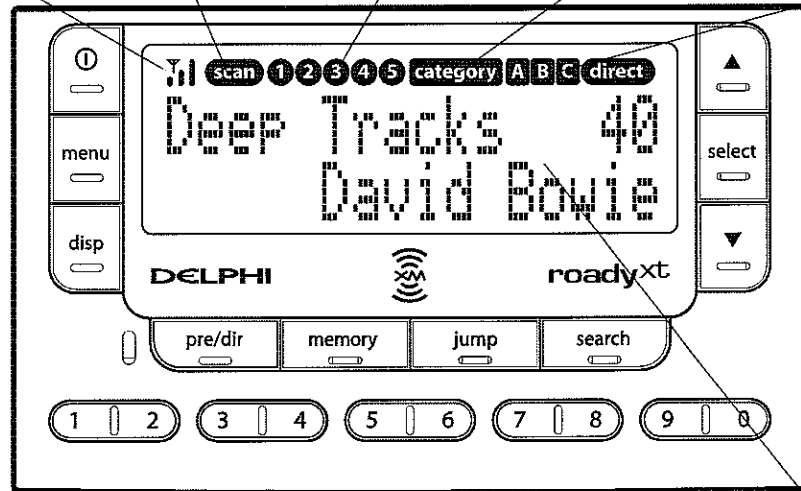

signal strength –  
1 to 3 bars

search by scanning  
all channels

display  
modes 1-5

search channels  
by category

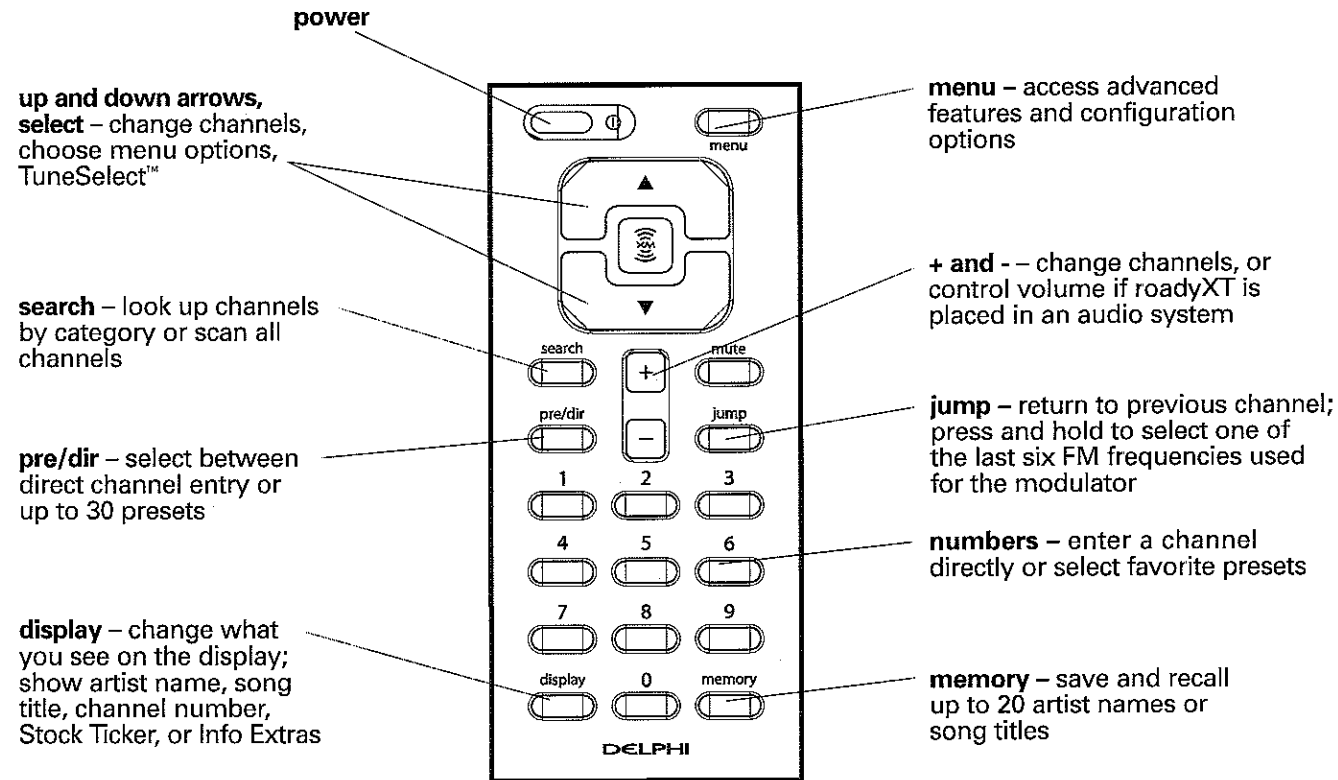

channel selection  
mode – direct  
entry or preset  
banks A, B, or C

additional info – channel  
name, channel number,  
artist, song title, Stock  
Ticker, and Info Extras

## Remote control\*

\*Sold separately

### Activating Your roadyXT

Use the arrow buttons to find channel 0, then push the “**select**” button to choose it. You should see an 8-character XM Radio ID in the display. (The XM Radio ID should also be on the bottom of your roadyXT, and on the package.) Write the ID here:

--	--	--	--	--	--	--	--

Note: Carefully check your XM Radio ID. **The letters I, O, S, and F are not used.**

Activate your XM Satellite Radio service by contacting XM at <http://activate.xmradio.com> or by calling 1.800.XM.RADIO (1.800.967.2346). You will need the XM Radio ID and a major credit card.

XM will send a signal from the satellites to activate the full channel lineup. Activation normally takes 10 to 15 minutes, but during peak busy periods, you may need to keep your roadyXT on for up to an hour to complete the activation process. When you can access the full channel lineup on your roadyXT, you're done!

**Warning:** When using this product it is always important to keep your eyes on the road and your hands on the wheel. Not doing so could result in injury and/or death to yourself or to others and/or in property damage.

**Warning:** Failure to properly follow all installation instructions may result in personal injury, death, and/or damage to your roadyXT, accessories, and/or to your vehicle or property.
