The right side of the PCB is populated with various integrated circuits and components. Notable chips include an AKM 4345E1 7S111, a SEC 201 8675 K4W5163PI YR10339, and a U2001. There are also several smaller chips labeled U901, U903, U888, U2150, U904, U888, U902, U2021, U2020, U1904, and U1400. A VCC 3.3 label is visible near the center of this section. A QR code and a small white label with the text 'C110023101' and '1 NDM' are also present.
