GUI Declaration letter

Date: 2013-10-14

FCC ID: RSL-TQ2450

To Whom It May Concern:

We, Allied Telesis R&D Center K.K., declare that as part of the DFS functionality in the WLAN driver, software is implemented to react to radar detection messages and move to a new channel. The control of this functionality is not accessible to anyone under any conditions. Furthermore, the firmware is only can be modified by using a special tool (console cable) which will not be released and won't supply any console pin with the finish product.

Thank you for your attention.

Sincerely yours,

A handwritten signature in black ink that reads "Shunji Taki". The signature is written in a cursive style with a long horizontal line extending from the end of the name.
