Tele: (510) 505 0469

February 3, 2004

To whom it might concern:

....

Because of the simplification of our design, all the components used in it such as: resistors, capacitors, inductors or diplexer etc. has fixed value, and doesn't need adjustment during volume product, and no tune up procedure is needed for the purpose of verify frequency or output power level etc.

....

Sincerely yours,

Hongtao Zhan
CEO
Cellphone-Mate Inc.
