Subject: Modular Approval Requirements for FCC certification for Hewlett Packard DNMA-83 Product.

Reference: FCC ID: RTP-DNMA83S

Dear Application Examiner,

Hewlett Packard's DNMA-83 is seeking modular approval for FCC ID: RTP-DNMA83S. The radio meets the requirements for a limited modular approval as detailed in the FCC public notice DA00-1407. Compliance to each requirement is described below:

1. The modular transmitter must have its own RF shielding.
– We comply.
2. The modular transmitter must have buffered modulation/data inputs.
– We comply.
3. The modular transmitter must have its own power supply regulation.
– We comply.
4. The modular transmitter must comply with the antenna requirements of Section 15.203 and 15.204(c). The antenna must either be permanently attached or employ a “unique” antenna coupler (at all connections between the module and the antenna, including the cable).
– We comply.
5. The modular transmitter must be tested in a stand-alone configuration.
– Not tested because it is a Limited Modular Approval..
6. The modular transmitter must be labeled with its own FCC ID number.
– We comply.

7. The modular transmitter must comply with any specific rule or operating requirements applicable to the transmitter and the manufacturer must provide adequate instructions along with the module to explain any such requirements.
 - We comply.

8. The modular transmitter must comply with any applicable RF exposure requirements.
 - We comply.

Sincerely,

A handwritten signature in black ink that reads 'John Czyzewicz'. The signature is written in a cursive style with a large, sweeping 'J' and 'C'.
